## We are now recruiting!

### Representative Application Form

*Medefine Education* represents a recent international, multi-centre mentoring project developed by a couple of junior doctors and medical students in Exeter which aims to widen access to medicine on a global scale. Do you have an interest in medical education, widening access to medicine, and teaching? This opportunity is open to enthusiastic **EU / International** (non UK) students who would like to inspire others to succeed.

#### What's in it for you?

Certificates will be given to acknowledge your efforts and you will be co-authored on any future papers, books, and electronic publications written as a result of this project. This is a great opportunity to enhance your CV and Medical Portfolios, especially for those of you with an interest in teaching, mentoring, and widening access to medicine. There will also be several prizes for the best tutors, best articles, and other national competitions.

#### International Work Opportunity

Our senior supervisors have contacted several international schools and education advisers from abroad and have secured partnership with countries such as Romania, India, UAE, Singapore, Malaysia, Austria, and others. Our team is committed to expanding and spreading our information throughout the world. If you have any contacts in your country of origin – be it your ex-school or other education advisers that helped you with your medical school application do get in touch with us. Our team will visit some of these schools during the holidays so if you happen to go home over these periods, you may be able to take part in international presentations. Otherwise, you will all help in the future with advice via our online platform.

#### Please highlight the fields that interest you most

I would like to be contacted with opportunities about...

- International presentations Y / N
- National Presentations Y / N
- Online mentoring for UKCAT Y / N
- Online mentoring for BMAT Y / N
- Online mentoring for Interview Skills Y / N
- Online mentoring for Personal Statements Y / N

- Electronic publications Y / N
- Book publications Y / N
- Becoming a personal tutor Y / N

You can sign up to as many sections as you want and decide at a later stage the activities that you want to focus on. This is a flexible role and the time commitment is minimal – it’s up to you how much time you want to put in. We want to make sure this doesn’t interfere with your medical studies. Training sessions will be provided for some of the sections mentioned above.

Please complete the form below with your personal details and email it to [info@medefine.org](mailto:info@medefine.org) with the subject “Representative Application”.

**Full Name:** .....

**Medical School:** .....

**Year of Study:** .....
